JACKSON, MO., AUGUST 6, 1903.

The Republicans of this county have now more need of getting together than ever. The Prohibitionists and Democrats have gone together, as we infer, and the Republicans will have to defeat the whole gang, and by sticking together we can do it.

The Prohibition club last Wednesday by resolutions made the Cash-Book their organ. They say all the good done against saloons and things in this county has been done by the Cash-Book. In other words the Prohibitionists have gone Democratic.

If there is anything we do like it is honesty, truth and consistency. We may have not done a particle of good on earth, but there is one thing certain we have tried and we have never pretended to be one thing and vote and work for another, and we are not working for a prize.

From Fruitland.

Wheat threshing is done except one little crop, that of Perry Hays. He will thresh as soon as the weather gets cooler.

Mrs. John Sides of St. Louis is visiting relatives here.

Sloan Short is still getting along nicely, but slowly.

The railroad grading gangs are getting closer to our little town. I guess by and by we will hear the rumble of train and whistle of the locomotive as they come gliding through the city of Fruitland.

D. T. Sawyer bought the Woods house and lot this week.

Hog cholera is getting closer to this part of the country. We also hear that Mr. Stewards, cattle are dying with the black-leg. If we get a mixture of hog cholera, black-leg and dry weather we certainly are being tried about right.

From Allenville.

Most people are done plowing corn and threshing wheat.

The blackberry crop was fine this year. They are about all gone now, but some time ago the people could gather them by wagon load.

Hay that is in the shock is damaged owing to the last rain. Plenty of sore eyes and malaria fever. Doctors are busy.

We thought the frogs would have to hop out of here before they got ripe, before the rain, but they continue to grow since the rain.

Dr. Higdon from Fredericktown has occupied the Blackman property. We understand he is getting a good practice to start on. Dr. Higdon practiced in Madison county and Indian Territory before coming here.

The Groves Mercantile Co. have rehauled everything and are preparing to do a rush business.

Wheat was about one-fourth crop. May was good and corn promises to be anything but a failure.

Some timber work has started up, such as cutting and hauling saw-logs.

John Withers pulled his threshing machine in the other day and will soon start his corn mill on Saturdays and the close inspection of watches the rest of the time.

What's the matter with the Herald correspondents? Get a move on you boys and give us the news. Don't sleep too much because it is hot weather.

OBSERVER.

Thoughts of Others.

Of nearly 1,000 Missouri newspapers to be included within the exhibit of the state's journalism to be made by the World's Fair Commission in the Missouri building at the 1904 World's Fair, 43 are in the German language; one in Swedish, one in Bohemian and one in Polish.—Charleston Courier.

Another son was born to ex-President Grover Cleveland and wife Saturday, July 18, at their summer home at Buzzard's Bay, making the fifth child—three girls and two boys—Ruth, Ester, Marion, Richard and the youngest unnamed. They were married June 2, 1886, and Ruth the oldest, will be 12 years old October 13, 1903.

A Michigan paper says that in Chillicothe they are telling a good story on a young man who holds a humble position in a printing office, says the Kansas City Star. The young man was very fond of the daughter of a minister, but his devotion to her is comparatively new. The other Sunday he went to church to hear the father of his innamorata preach, and unfortunately sat down where everybody could see him. The text was: "My daughter is grievously tormented with a devil."

The court of appeals decided recently that if a man leaves his seat in a railroad car, even though he has placed therein a satchel, coat or umbrella, it may be lawfully occupied by another person. It came up on a case where a man had placed his belongings in a seat and when he returned found the satchel in the aisle and another man occupying the seat. They had an altercation, the intruding party thrashed the other and threw his things out of the window. He was arrested but won the case in the court of appeals.—Ex.

Constable Bader, assisted by Deputy Sheriff Shields, Wednesday night arrested J. W. Butler, an engineer, charged with an attempt to outrun a little 7-year-old girl at Pomona recently. Butler at first denied his identity, but finally admitted he was the man wanted, but denied the charge, saying it was an attempt to blackmail. He is employed by the Frisco, and had a freight run from here to the Cape. He has employed Brewer & Collins to defend him, and Mr. Collins left on Thursday morning with Shields and his prisoner for New Madrid.—Charlestonville Democrat.

The Frisco System has issued a very pretty folder, embellished with pictures of a watermelon and canteloupes, containing a map showing its lines in Southeast Missouri, entitled "Where the Watermelon Grows." It contains an estimate of the number of ears of watermelons that will be shipped from Frisco stations this season, with the statement that shipments will begin in Dunklin county about the 15th and in Scott county about the 20th. Dunklin county is expected to ship 1,000 ears and Scott county about half that number. From Scott county, however, the Iron Mountain will take as many more ears, besides several hundred, perhaps from this county.—Charleston Enterprise.

The Howard county court has probably put an end to "Uncle Tom's Cabin" in the territory over which it has jurisdiction. It has imposed a license tax of \$200 per day on all circuses and "Tom" shows seeking to give entertainments in the county, and has required a payment of \$100 per day by those who give snake-eating exhibitions. Unless someone is sufficiently interested to contest the action of the court as class discrimination, the career of "Uncle Tom" may be regarded as ended so far as Howard county is concerned. The reason for this extraordinary course is that Howard county holds the Missouri record as a slave holding community, and there is a general prejudice there against the version of slavery set forth in Mrs. Stowe's work. There is al-

so a theory that the negroes of Howard—and they are quite numerous—always show a little less respect to the whites for a few days after they have witnessed a "Tom" entertainment.—Columbia Herald.

A Word From Prof. Moench.

Editor HERALD.

Dear sir, you have been so kind as to offer to me the columns of your valuable paper in the interest of our J. M. A. and I am very glad and grateful to accept your kind offer and say a word or two as to my position toward the Academy and to the educational interest of Jackson and vicinity in general.

I have been in Jackson almost five weeks, and have come here to help in the good work of Prof. Birmingham and Hamlin, to build up the Academy and make it what it ought to be, and no doubt in time will be, the institution of higher learning, not only in Jackson, but in this part of our great state, Missouri.—I am what I profess to be, an enthusiastic educator and teacher of long experience. My record as such is clear. I have the good will of my many students who have been under my instruction whilst holding the professorship in the State Universities of Washington and Utah and the schools of prominence. My students and the love they bear me are my best testimonials. Of course I am competent in my profession.

I came to Jackson because I liked the people and my present partners, Messrs. B. and H. I like the country and soon saw the great many advantages here for establishing a good school and institution of higher education, so that our people here would not find it necessary to send their children away to other institutions where they have a much higher price to pay for tuition and board than we charge right here in Jackson and have them educated at home and under parental influences.

I have come to stay here and build up a home for my family. Mrs. Moench, who will join me here as soon as possible, has a long experience as preceptress and matron and will in time prove a valuable addition to the Academy.

Now as to the Academy, I know that the school in the past has had a somewhat "checkered" experience. This does not discourage or concern me at all; I am looking forward into the future with great hopes. The last year at least has proven that the Academy does exist and can exist, when rightly managed. Two young men (genuine Americans) have stood at the head of this school and have worked up an interest for the school which has surpassed even the highest expectations of the friends and patrons of the Academy. The attendance has been very good and will be better as time goes on.

The Academy is not a denominational school, but by no means a school that would underestimate the good influence of all churches. The present managers of the Academy are Christian men, who consider the old maxim as a true one. "An education without religion is vain." Our students will be urged to attend the respective places of worship and no day in our Academy will be begun or closed without the invocation for God's help. Religious liberty is the first feature of the school.

The training and education of our students will be as thorough as it is possible, not a mixture composition of everything and nothing, but our students when leaving the Academy must have a substantial "something" which will enable them to enter into business life or continue their studies in our State University or other schools of prominence and reliability. We will endeavor to educate our young men and

women to become useful members of human society and good American citizens.

The discipline in the school will be strict and just, but not unnecessarily harsh. We are not a reform school, but a school which will try to be helpful to everyone of its students. The use of cigarettes, frequenting saloons and billiard rooms are strictly forbidden to students of the academy. The honor-system will be applied, and such rules enforced in the school as we expect to find in every well-regulated Christian family. Every student will receive such personal help and attention as thought necessary.

We expect that in time our American and German-American citizens in and around Jackson will appreciate the value of such an institution as the J. M. A. and not find it necessary to send their children away to other and higher priced schools.

Finally, the undersigned has received his education in the best colleges and universities of Germany, has established his reputation as a reliable educator in this country and will exert all his efforts to make the J. M. A. a success and a permanent place of education of which our citizens and patrons have reasons to feel justly proud of.

Very truly,

DR. K. MOENCH, J. M. A.

ADMINISTRATOR'S NOTICE.

Notice is hereby given that I, the undersigned public administrator of Cape Girardeau county, Missouri, have taken charge of the estate of Jacob Faltzberger, deceased, for the purpose of administering thereon, this, the 28th day of July, 1903.

All persons having claims against said estate are required to exhibit them to me for allowance within one year from the date of said letters or they may be precluded from any benefit of such estate; and if said estate is not exhibited within two years from the date of publication of this notice they will be forever barred.

JAMES E. CLARK,

Public Administrator.

Notice.

You can get fresh bread and cakes at Waggoner's bakery at all times. Meals served in first-class style.

WM. WAGGONER, Prop.,

Jackson, Mo.

ADMINISTRATOR'S NOTICE.

Notice is hereby given that letters of administration upon the estate of M. R. W. Branger, deceased, have been granted to the undersigned by the Judge of the Probate Court of Cape Girardeau County, Missouri, in vacation, bearing date the 28th day of July, 1903.

All persons having claims against said estate are required to exhibit them to the undersigned for allowance within one year from the date of said letters, or they may be precluded from any benefit of such estate; and if said estate is not exhibited within two years from the date of the publication of this notice, they will be forever barred.

W. H. MINNIE, Administrator.

Notice.

All parties knowing themselves indebted to the estate of the late Dr. A. G. Blackman are requested to call and settle. All accounts will be found in the hands of C. M. Dale at Allenville, Mo.

T. J. BROWNING,

Administrator.

Gallons worth \$2, \$1.00.

Highest market price paid for all country produce.

G. MILTENBERGER & COMPANY.

The Fraternal Order of Colonials.

A Fraternal Beneficiary Society Organized Under the Laws of the State of Missouri.

Reserve Fund Created From Inception of the Order.

Objects of the Order.

The purpose of this organization is to unite in a fraternal body all white male persons of good moral character; between the ages of 18 and 60 years, who can pass the necessary medical examination, and who are not engaged in hazardous occupations.

Government.

The members of the Order are united into Local Assemblies, and are governed by a Supreme Assembly of 25 members elected by all the members of the Order every four years. The laws enacted by the Supreme Assembly are applied by the Supreme Executive Committee consisting of the six Supreme Officers of the Order, and by a Supreme Auditing Committee of three representative business men.

Plan of Operation.

The amount of money the beneficiaries of a member receive at his death depends upon the period of membership. If death occurs during the first year of membership the Order pays \$200 on each \$1000 in the beneficiary certificate; if death occurs during the second year the payment is \$300 on each \$1000; if death occurs during the third year the payment is \$400 on each \$1000; if death occurs during the fourth year the payment is \$500 on each \$1000; but if death does not occur until the fifth or later year of membership the Order pays, not only the full face of the certificate, but in addition thereto all assessments paid thereon, less \$150 for each \$1000 in the certificate.

Application of Assessments.

Out of every monthly assessment paid by each member, 5% per cent. thereof is applied to maintaining the Order and paying death losses. The full and prompt payment of every death claim is guaranteed by the Reserve Fund of the Order. The Reserve Fund is created, first, by 13% per cent. of each and every assessment paid by every member; second, by all monies from the certificates of members whose deaths occur after more than four full years of membership.

bership. The double stream of revenue flowing into this fund creates a percentage of Reserve not surpassed by any Fraternal Order in existence.

Ritual.

It is the aim of the Order to afford its members an equitable, business-like, and economical plan of protection, founded upon the past experience of the life insurance world. But it is at the same time a social organization. It has a beautiful ritualistic work that is pleasing and instructive.

Expense.

The membership fee is \$5.00. This includes the cost of medical examination. Benefit certificates are issued for \$1000 or \$2500 as each member for himself may elect. The assessment is 75 cents per month on each \$1000. Each Local Assembly fixes a small monthly payment for local dues to meet such expense as it may incur. The payments each month are the same, and all members pay alike. Assessments are not graded according to the ages of the members, but the money paid out at the death of each member is equalized according to his period of membership.

SUPREME EXECUTIVE COMMITTEE.

David P. Bailey.....Supreme President.
Wm. D. Robertson.....Supreme Vice-President.
Edward D. Hays.....Supreme Secretary.
John F. Naylor.....Supreme Treasurer.
